Your Child's World Learning Center, \$3,058,000; and
Youth Enrichment Programs, Inc., \$638,000

Location:

Pre-K Partnership Support

Renewal Option:

N/A

Description:

Why is this contract needed?

The District is the single largest provider of quality preK programming for three- and four-year-olds in the City of Philadelphia, currently serving nearly 11,000 children through internally-operated programs within District buildings as well as partner-operated programs located in community-based centers. This action item seeks authorization for the District to contract with the partner-operated preK programs, all of which have qualified for this work through a rigorous and competitive review process that includes evaluation of a comprehensive written response to an RFQ, multiple site visits, and review of prior experience and performance. In addition, all

contracted providers must be licensed as child care sites, and maintain high-quality ratings under the Pennsylvania Department of Education's system for authorizing and monitoring preK, known as the Keystone STARS system.

How will the success of this contract be measured?

Performance metrics for all of the District's preK programs are collected across a variety of domains, from student academic and health outcomes to programmatic and fiscal compliance, and are reviewed and analyzed on an annual basis to assess results as well as inform future programming and support needs. Individual contractors are provided with coaching and other supports from the District to help them to continue to meet all licensing and quality standards; contractors that fail to meet required standards are terminated, and their preK slots are reallocated to other qualified providers to enable families to continue receiving services.

When applicable, is this an evidence-based strategy? If so, what evidence exists to support this approach?

High quality preK is generally accepted by national researchers and policy makers as an evidence-based strategy that provides substantial short and long-term academic, behavioral, social and health benefits for children, as well as positive social and economic impacts for the larger community. For two recent and widely published studies documenting this evidence, see the National Bureau of Economic Research's The Long-Term Effects of Universal Preschool in Boston (May 2021, by Guthrie Gray-Lobe, Parag A. Pathak and Christopher R. Walters) and The Lifecycle Benefits of a Prototypical Early Childhood Program (2019, by James Heckman, Jorge Luis García, Duncan Ermini Leaf, and María José Prados).

When applicable, was a larger array of District community members and/or stakeholders involved in this selection process? If so, what groups and how?

All of the District's preK providers are identified and selected under a competitive procurement process, described earlier, that is conducted by a committee of District staff with relevant programmatic and fiscal expertise who review written RFQ responses, consider performance data, and conduct site visits.

Which Goal and/or Guardrail does this Action Item support? Has this investment been discussed during a progress monitoring session?

This action item supports Goals 1-3. Previous progress monitoring sessions for Goals 1-3 have referred to the District's substantial investments in preK.

Does this Action Item support a specific strategy/intervention identified in the Strategic Plan?

The District's preK programming directly supports Strategic Action 3.1 about improving access to high quality preK for underserved populations.
