Description:

Why is this contract needed?

This contract is necessary to facilitate the District's compliance with Policy 706 by enabling the District to engage the services of a licensed appraiser to conduct property evaluations. These appraisers will be used to evaluate surplus properties, when needed, for sale purposes.

How will the success of this contract be measured?

The success of this contract is measured by the information presented to the School District regarding the market value of the proposed site.

If this is the continuation of a contract, how has success been measured in the past, and what specific information do we have to show that it was successful?

The School District has previously worked with both of the appraisal companies listed within this document; they have proven to provide information that has been beneficial to the decisions made by the School District.

When applicable, was a larger community of District community members and/or stakeholders involved in this selection process? If so, what groups and how?

There was an RFP (NG10611) issued to identify potential Appraisers.
