Location:

All Administrative Offices, All Schools

Renewal Option(s):

N/A

Description:

Why is this contract needed?

The Office of Facilities Management and Services identified a need to extend its Waste Management Services contract for an additional two years. This extension will allow for school waste management, trash removal, and recycling services to continue without interruption.

How will the success of this contract be measured?

The contractor is evaluated by the Office of Facilities Management and Services based on quality of work and adherence to project budgets.

If this is the continuation of a contract, how has success been measured in the past, and what specific information do we have to show that it was successful?

This contractor was selected through an RFP process. Unfortunately they were the only contractor to submit a proposal. The contractor does have a track record of satisfactory work for the district. The Office of Facility Management and Services will also monitor the work for quality and completeness.
