Description:

Why is this contract needed?

Effectively communicating the School District of Philadelphia's numerous annual marketing campaigns – including *Ring the Bell Back to School*, *Pre-Kindergarten registration*, *Kindergarten registration*, *School Selection*, *Talent Recruitment*, *Student Attendance*, and *I AM SDP* – requires engagement with market-leading media companies that provide unique access to the full range of in-home and out-of-home advertising tactics that can successfully and cost-efficiently reach the spectrum of audiences that our annual campaigns target. These audiences include students, families, community members, business leaders and other Philadelphia stakeholders. Keeping these audiences engaged and informed is a vital aspect of achieving the strategic goals outlined in *Accelerate Philly*, the District's five-year strategic plan.

How will the success of this contract be measured?

Contract success will be measured by our ability to cost effectively procure advertising that effectively delivers on our planned reach and frequency goals for each campaign.

If this is the continuation of a contract, how has success been measured in the past, and what specific information do we have to show that it was successful?

Each of the above noted media outlets has successfully provided advertising support services that helped to achieve the desired reach and frequency goals of each campaign.

When applicable, is this an evidence-based strategy? If so, what evidence exists to support this approach?

The results noted above are evidence of the power of a targeted, diversified and adaptive media buying approach to reach and engage our target audiences and deliver overall campaign objectives.
