

34. Amendment of Contract with SDG Security LLC for Fire Alarm and Intrusion Alarm Telecommunications Services (\$250,000)

Action Item - 34

Title: Amendment of Contract with SDG Security LLC for Fire Alarm and Intrusion Alarm Telecommunications Services (\$250,000)

Board of Education Meeting Date: 5/29/2025

Action Under Consideration

The Administration recommends that the Board of Education authorize The School District of Philadelphia, through the Superintendent or their designee, to execute and perform an amendment of a contract, subject to funding, as follows:

With:

SDG Security LLC

Purpose:

Telecommunications installation, repair, and monitoring services for fire alarm and intrusion alarm systems.

Originally Authorized Start date: 11/1/2022

Originally Authorized End date: 10/31/2025

Amended Authorized End Date: 10/31/2026

Currently Authorized Compensation: \$600,650

Additional Compensation by Contractor:
\$250,000

Total new Compensation: \$850,650

Location:

All Administrative Offices, All Schools

Renewal Option(s):

Yes

Number of Options:

1

Duration of each option:

1 Year

Maximum Compensation authorized per option period:

\$90,000

Description:

Why is this contract needed?

Under this amended contract, the District will continue engaging with SDG Security LLC for the monitoring of intrusion alarm and fire alarm systems. Additionally, the District will continue to have access to the services of SDG Security LLC for the installation and maintenance of cellular communication devices for the monitoring of intrusion alarm and fire alarm systems.

How will the success of this contract be measured?

Success of the contract will be measured by the following metrics:

- Correct and accurate transmission of signals from intrusion and fire alarm systems from cellular communicators to the District's central monitoring station; and
- The on-schedule installation and maintenance of cellular communicators as requested by the District.

If this is the continuation of a contract, how has success been measured in the past, and what specific information do we have to show that it was successful?

In the initial contract with SDG Security LLC, signals from installed communicators have been correctly transmitted from the vendor-installed cellular communicator to the District's central monitoring station. All concerns regarding the correct function of communicators were addressed by the vendor.
