Description:

Why is this contract needed?

This is an amendment to an existing contract with ANRO for the production, printing and mailing of marketing materials in support of the School District of Philadelphia's annual marketing campaigns. The not to exceed contract amount is being increased to reflect additional printing needs that were not known or accounted for during original contract development.

How will the success of this contract be measured?

Success will be measured by the on-time and on-budget delivery of all project deliverables in alignment with agreed upon production quality standards and timelines.

If this is the continuation of a contract, how has success been measured in the past, and what specific information do we have to show that it was successful?

Success will continue to be measured by the on-time and on-budget delivery of all additional project deliverables in alignment with agreed upon production quality standards and timelines.
